Business live – Field Trips

Berlin is a symbol of German history ranging from Prussia, the Nazi Regime, World War II, and the Cold War to German reunification. The agenda contains a visit of the "Reichstag" (The German Parliament) and a discussion with a Member of Parliament, the Berlin Wall, Brandenburger Tor and Checkpoint Charlie.

Frankfurt is sometimes called "Bankfurt" or "Mainhattan" as it is home to the European Central Bank and some of the world's biggest banking institutions. The agenda contains a visit of the European Central bank with presentations and discussions.

The port of **Rotterdam** is the largest in Europe and its logistical nerve center. The agenda contains a visit to both, the city and the port of Rotterdam.

The Peace Palace, which houses the International Court of Justice, is visited in **The Hague**. The trip through the Netherlands will be rounded off with a city break through **Amsterdam**.

Company Visits

The European Summer School program includes several one-day field trips to regional mid-sized companies, which are well-known and typical German mid-sized companies producing high quality products. Mostly they are family-owned businesses with a specific corporate culture and governance policy. The companies are very successful in the global market but their production facilities are mainly located in Germany. During the company visits students will see high-quality manufacturing and get a chance to discuss corporate business strategies with the management.
